

## How Dewey find the books?

The Dewey Decimal System is a way to keep items in order by subject. It helps you find what you are looking for! In this system, books are numbered, from 000 to 999, and every topic has a number. The more specific the topic, the more specific the number. For example, you can find nonfiction books about **sharks** in the **597.3s**.

## Healthy choices Stay safe online

“Remember, the Internet doesn’t forget! Whatever you share will, from then on, be available online forever. Furthermore, nothing you send is truly private. Even messages from a private conversation may be seen by lots of other people.”

☹️ “Never be afraid to ask parents or loved ones for help if something unpleasant is happening online.”
